

Allow home delivery by all retailers, not just e-commerce players: RAI

New Delhi: The Retailers Association of India urged Government to “strongly consider” allowing all forms of retailers, not just e-commerce players, to operate through home delivery during the extended lockdown period. While supporting the Government’s move to

extend the lockdown to curb the spread of coronavirus pandemic, RAI said such a move will facilitate availability of all goods at the doorsteps of customers while supporting economic revival for the country.
